AMERICAN SPEED COMPANY Introduces Special Edition Gauges

PLYMOUTH, Michigan – American Speed Company, the Detroit manufacturer of the multi-award winning Speed33 all-steel convertible body, is excited to announce that they now offer a Special Edition Gauge set for your Speed33 or custom hotrod build.

In coordination with Classic Instruments, of Boyne City, Michigan, the gauges are available in a 6-piece set, which blends right in with the American Speed gauge cluster. The 6-piece set includes the speedometer, tachometer, temp gauge, oil pressure gauge, fuel gauge and volt gauge.

The speedometer and tachometer are 3-3/8" and the four smaller gauges are 2-1/8". The look is purely traditional yet totally unique with the American Speed insignia. These Special Edition Gauges are another fine addition to their current accessory line-up.

To place your order today, you can contact American Speed Company direct at 734.451.1141 or sales@americanspeedcompany.com.

About American Speed Company: Founded in 2006, American Speed Company is an automotive and product development company started by Industry design veteran, D. Mark Trostle.
